

Ozone pools and spas naturally better

With a King Neptune Ozone Synergistic System™ installed, you will enjoy clean, clear, water everyday.

Ozonated water helps to rejuvenate your skin and won't harm your hair or eyes. Ozone is the natural way to sanitise your pool and spa. Pools and spas which have been ozonated look, feel and smell cleaner while using less chemicals as the ozone system does most of the hard work for you.

Whether it's 500,000 Litre Swimming pool or a 1000 Litre Hydrotherapy Spa Isaac Technologies manufacture an Ozone System that is ideally suited to your application.

A King Neptune Ozone system takes the hassle out of looking after your pool or spa. Ozone is a powerful, safe water sanitiser that keeps water clean and crystal clear and because Ozone is pH neutral your water balance remains stable, therefore increasing service life of your pool and spa heating and filtration equipment.

Ozonated water is smooth and moisturising to hair and skin. No need to shower after swimming. No allergic reactions or rashes.

Ozonated water is kind to eyes so you can swim without goggles.

Ozonated water is environmentally friendly and discharged water can be used to water flowers and vegetables.

Ozonated water has no undesirable taste or smell in fact Ozone is used to purify drinking water and is used as a dental rinse. It is known to promote healthy gum tissue.

Why Ozone?

Why King Neptune?

Benefits of the King Neptune Ozone Synergistic System™.

The King Neptune ozone synergistic system eliminates the use of costly chlorine and other hazardous chemicals; reduces running costs; cuts down on the cleaning of pool and spa; doesn't fade or leave a bad odour in swimwear; and there is no corrosion or scaling of pool and spa components.

Your skin and hair feels softer with an ozone system and bathers don't suffer from skin or eye irritations also wounds heal more quickly.

Ozone water is environmentally safe. There are no harmful by-products and the King Neptune Ozone Synergistic System™ cuts down on the amount of chemicals used. It is far less toxic than chlorine or bromine and retards algae growth.

The four key products for your pool or spa.

The King Neptune Ozone Synergistic System™ relies on only four chemicals in order to keep your pool or spa in top running order: Ozone Accelerator is the active chemical in the ozone system, which when used in conjunction with a King Neptune™ ozone generator sanitises your bathing water to drinking quality. Ozone Clear is for maintaining water clarity and a capful a fortnight is enough to keep your water crystal clear. Ozone Plus Increaser is used for raising the total alkalinity of the water and Ozone Plus Calcium is for maintaining calcium levels in the pool or spa at an optimum level thus preventing corrosion and scaling. These four products are used together with an ozone generator to provide the clean, fresh water which the system promotes and also maintains the efficiency and prolongs the component life of your pool and spa unit.

King Neptune Ozone Generators – the heart of the Ozone Synergistic System™.

Isaac Technologies and King Neptune™ have developed a range of Ozone Generators to suit your application whether it be for a small spa, a large pool or for commercial applications. Feel free to contact Isaac Technologies™ or a registered dealer near you for further information with regards to the Ozone Synergistic System™ and the King Neptune range of Ozone Generators.

Generator Model	Use	Capacity (litre)	Ozone Output (mg/L)	Size (mm)	Voltage (Volts)	Frequency (Hertz)	Ampage (Watts)	IP Number	Approval Number
(A) MK4	Spa Unit	200 - 1000	0.6	80(W) x 407(H)	240	50	30	IP23	NI4283
(B) MK1	Spa Unit	1000 - 10000	1.6	108(W) x 420(H)	240	50	40	IP23	NI4283
(C) MK6	Pool Unit	10000 - 45000	2.6	80(W) x 860(H)	240	50	50	IP23	NI4283
MK5*	Pool Unit	45000 - 90000	—	350(W) x 575(H)	240	50	150	IP23	NI4283

* Please ring for more information regarding the MK5 and it's uses.

- For commercial applications consult your nearest King Neptune dealer.
 - Output may vary with airflow, temperature and humidity.
 - In the interest of product development specifications may be subject to change.
- For up-to-date information please consult the Isaac Technologies website.
